

ÅSLJUNGAGÅRDEN

HOTELL & KONFERENS

CONFERENCE & MEETINGS

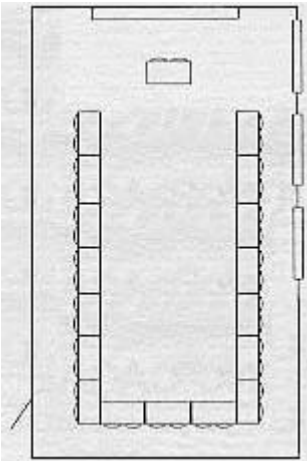

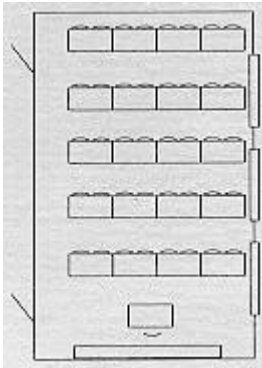

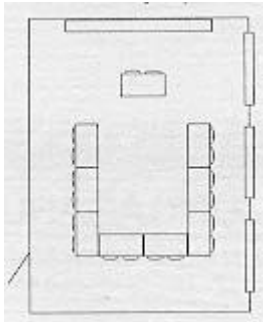

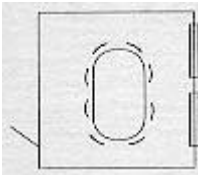

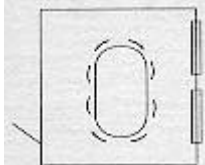

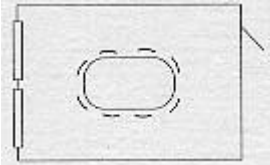

Earlier we mentioned the inspirational surrounding of Åsljungagården. It contributes a lot to the success of a meeting or conference, but of course it needs to be accompanied by other, more technical possibilities. We know that your meeting will be so much easier in a stimulating environment where everything works just the way you want it. You will feel our commitment from the first contact with the hotel, until you leave us very well satisfied!

We have five conference rooms and six group rooms, all of different size and layout. The smallest room fits between 6-8 people and the biggest room seats roughly 80 people.

The conference rooms are functionally equipped with modern tools such as PC-projectors, VCR's and DVD-players. We can help provide almost any technical equipment you may need for your conference, as long as we are told in advance.

The hotel is equipped with wireless Internet Access and access cards can be purchased in the reception.

At Åsljungagården we make it easy for you and put everything in a package deal, when it comes to pricing.
